

Photography 15 / Assignment 3

Direct Approach
Due Date _____

Straight Photography

The “Straight” tradition is one where the subject is allowed to reveal itself through the camera. No manipulation of the subject is allowed. You need to show the subject in its natural form, setting and without disturbing it in any way. Stay true to the character of the subject.

Print controls such as contrast, burning and dodging are permitted.

Make sure you choose your subject carefully and use your tools of design, composition, light tone and texture to illustrate your subject.

WHAT YOU’LL NEED:

- At least 25 digital files or one roll of 24 exposure film.

WHEN FINISHED YOU WILL UPLOAD TO ME:

- 1 file that you feel fulfills the assignment. Separate folder with your out takes (10 no more). If doing it in film then you need to scan the photo and give me your other images on a contact sheet with negatives in preservers.

*****NOTE:** Your final file must be 7 inches on the longest dimension, and 300 dpi.
In JPEG format. No TIFF, RAW or PSD files!
