

***Week 2 shooting assignment: Creative portrait***

Take a creative self-portrait, not just a thoughtless “selfie” and post it to my server. Place the file in the folder labeled with your name on the server.

Be sure to watch the video on the CONTACT page about uploading to the server and preparing your computer for Upload. (You must use the browser Firefox to attach to the server).

Set up your camera/phone to take the image in JPEG format on a medium size – THESE WILL NOT BE POSTED TO THE INTERNET – if you have an avatar photo on Canvas this is not acceptable – Shoot something new!

**Log On and Password for the server will be emailed to you over the weekend on your SCCCD email account.**

Good luck
